Projects

Movie App 1 / React.js, Tailwind CSS, Redux, TMDB API

- * This is a fully responsive Movie Application which contains a list of movies, tv shows from the cloud sorted based on the most popular filter. User can change filter (trending, popular, rated, and preferred language) & users can see the movie details, trailers, reviews, by clicking on the movie, tv shows they like on the home screen.
- * Designed and deployed a scalable real time data using TMDB API.
- * Implemented a search feature for user experience so a user can filter movies, tv shows according to their choice.
- * Project Link: <https://movie-app-nine-virid-51.vercel.app/>

Portfolio Site 2 / React.js, Tailwind CSS, Framer Motion

- * Portfolio is a compilation of user's academic and professional materials that exemplifies your beliefs, skills, qualifications, education, training and experiences.
- * Implemented a feature of social-links, like Mail, Linked-In and Github, so we can easily connect with a user.
- * Project Link: <https://dev-tiwari-portfolio.vercel.app/>

Geo-Trip Site 3 / React.js, Tailwind CSS, Swiper.js

- * Geo-Trip is a fully responsive tour & travel website comes with a feature of cab booking, destination, flight booking, hotel booking, resort, tour booking, travel agency, trip vacation.
- * Designed and deployed with a great UI design for all devices.
- * Implemented a feature of selecting specific date and destination place (arrival & departure) so user can easily use it.
- * Project Link: <https://flight-booking-website-seven.vercel.app/>

Course-Co App 4 / React.js, Tailwind CSS, Node.js, Express.js, Node-mailer, Json-Web-Token(JWT), Zod-Validation, Mongo-Db.

- * Course-Co App is a digital platform website for students who wants to crack an on & off campus placement with good skills where Course-Co helps them with their courses to get skills with mentor facilities and projects.
- * It contains a features of User sign-up and login with valid authentication by using JWT & Zod Validation.
- * It contains a feature of Admin login which has Dashboard where admin can manage all functionalities.
- * It also contains forget-password and reset-password with OTP feature by using Node-mailer.
- * User and Admin can also update and delete their profile such as username, email, and contact.
- * It contains a contact feature where user can deliver a message with their name and email to Course-Co.
- * Project Link: <https://courseco-app.vercel.app/>
